He also explained the programming required to drive these panels. From this visit student got lot of information regarding production , planning, quality control , handling and distribution of products to customers .

- **Bhikusa Paper Mill**

Department of Electronics & Communication has arranged Industrial Visit to “Bhikusa Paper Mill”, Hirawadi, Nasik on 8thOct 2011 for SYET students. The paper mill was a small scale industry which manufactured brown paper which is obtained from the domestic wastage of paper like cardboard etc. First the waste paper are mixed with water in a huge tank to make pulp, the pulp is dropped on the thin film

which is heated and hardened on the conveyor belt. This result in the formation of the brown paper which is then rolled around a roller and a big role is prepared.

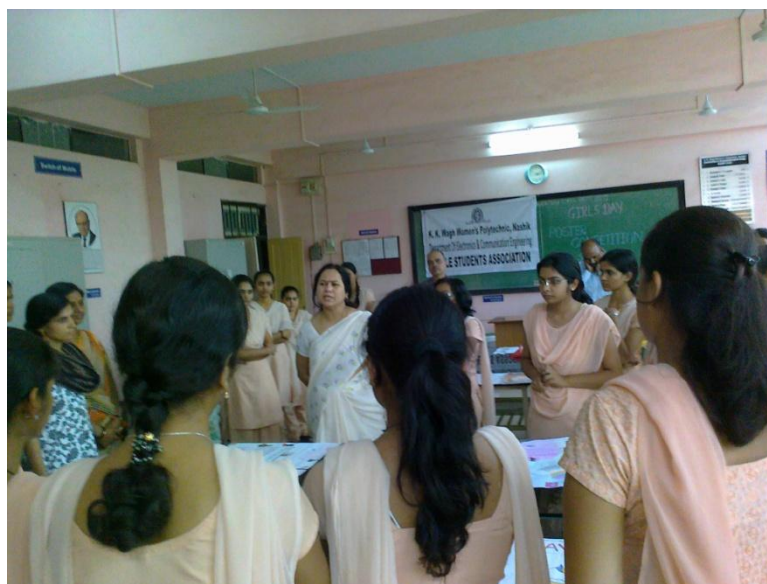

Visit to Bhikusa Paper Mill

➤ **Poster Competition**

Poster Competition was organized by Electronic & Communication department on 11th Oct 2011 based on the topic “Save a Girl Child” in which all TYET and SYET students were participated. The main purpose behind this activity was to focus the major problem of Female Birth decreasing ratio. In this, the students gave tremendous thought over it & conveyed it through Posters. The judge for the competition was Mrs.Nilima Patil from Information Technology Department and Mrs.Jyoti Bhamare from Computer Department they observed each poster and selected the best among them. Miss Meghana Chitte got First Prize and Miss Sampada Deore got Second prize from SYET and from TYET Miss Nisha Chavan got First Prize, Miss Vaishnavi Hire got Second Prize. This competition was guided by Mrs. S.S.Chandgude, Head of the Electronics and Communication department. All the Staff of Electronics and Communication department worked together to make it a success.
